PROFILE

Full-Stack Developer with experience in web and mobile applications using React, Next.js, Expo, and Node.js. Experienced in projects for clients and startups, delivering scalable solutions focused on user experience. Proactive, quality-oriented, and punctual in delivery.

« EXPERIENCE »

Full-Stack Developer — Veritia (Part-time)

Ago 2025 - Ene 2026 · Santiago, Chile

- Spearheaded the full-stack development of core application features (React/Node.js), optimizing software architecture to align with business objectives and improving overall system operational efficiency.
- Managed the end-to-end product lifecycle (ideation to QA), ensuring stable, continuous delivery and reducing production bugs.
- Designed and integrated scalable database schemas using MongoDB, optimizing queries and data management.

Full-Stack Developer — Nord (Freelance)

February 2025 - Present · Santiago, Chile

- Engineered and deployed high-performance mobile and web applications using the MERN stack and Expo, enhancing user retention through seamless UI/UX.
- Architected and implemented robust RESTful APIs in Node.js/TypeScript, reducing server response times and streamlining data integration.
- Administered MongoDB databases and automated deployment pipelines, ensuring system stability and high service uptime

Full-Stack Developer — Freelance

July 2024 - Present · Santiago, Chile

- Delivered custom corporate platforms and PWAs for key clients (including projects for CMPC, Perez Cruz, and RMH Operations), achieving significant improvements in end-user experience.
- Automated business and internal management processes by developing custom back-office modules.
- Spearheaded the successful integration of payment gateways and third-party services via Webhooks and APIs, ensuring secure and efficient transactions

Software Developer — Huemul Solutions

November 2023 - August 2024 · Santiago, Chile

- Built scalable web solutions using React and Node.js, integrating Azure cloud services that optimized the company's technical infrastructure.
- Standardized development workflows by creating comprehensive technical documentation, facilitating code maintenance and improving the team's delivery tracking.

IT Practices — Huemul Solutions / Duty Free

May 2023 - Oct 2023 / Feb 2023 - Mar 2023

VOLUNTEERING

Voluntary firefighter

March 2017 - Present

18ª Compañía, Cuerpo de Bomberos de Santiago
